# CRISIS RESPONSE, PEACEMAKING & DISCIPLESHIP

Mark Siljander, President  
703-906-6500

Gary Waldron, Director of Operations  
704-450-4057

David Hungerford, Board Chairman  
443-690-2801

## THE PROBLEM:

Many efforts and organizations respond to the symptoms of conflict, such as famine, war and displacement; but rarely if ever do they adequately address the root cause of conflict. Radical religious ideology, especially among the abrahamic faith groups is quite literally costing trillions of dollars. Most if not all is spent treating symptoms after the fact. Effective, long-term and preventative actions are needed.

## THE ANSWER:

Through 20+ years of trial and error, we have discovered a methodology that works and it does so consistently. Implementing a systematic strategy to completely undermine the radical religious ideology and heal the factors fueling this phenomenon. A combination of crisis response teams, re-educational tools and discipleship is needed. *Bridges To Common Ground* has frequent and unique open doors to engage world leaders in some of the most complex conflict environments (i.e. Sudan, Iran, etc.)

## Genocide Ended:

*The (Darfur) solution came from (Bridges).*

Ali Karti, Foreign Minister of Sudan

## Hostages Released:

C.A.R. Anti-Balaka Leaders

## THE NEED:

A full-scale approach to undermine the root causes of radicalism, war and humanitarian crises. Crisis response, preventative peacemaking and genuine reconciliation is possible. Engaging world leaders in the spirit of Jesus and his redemptive teachings. Equipping and empowering the on-going Messianic movements and in-field practitioners with tools to effectively resolve conflict factors between Muslims and Christians including on issues such as Jesus, Salvation, the Trinity and more.

## THE GOALS:

Respond to the needs of persecuted believers around the world (i.e. prisoners, hostages, etc.) including crisis response and prevention efforts. Build and expand educational tools to mitigate the "hot button" issues often responsible for conflict. Expand and franchise a domestic program to undermine the factors known to foster homegrown terror. Establish on-going and long-term discipleship in country.

## THE IMPACT:

Justice and freedom for persecuted believers, empowering redemptive Messianic movements, stopping and preventing wars, mitigating the threat of religiously motivated radicalism and homegrown terror.
